

DOOR DEFENDERS Sold Secure Silver Garage Door Defender

Description

The DOOR DEFENDERS Garage Door Defender is UK manufactured and is the only Domestic Silver Sold Secure product of its type. It features a 70mm stainless steel heavy security anti-drill padlock, as well as a 4mm laser cut body with anti-drill plates for anti-theft protection. The 5mm laser cut base is yellow zinc plated for long life and the rubber end caps protect the garage door from scratches and damage. It comes complete with 4 rawl concrete ground fixings and fitting instructions.
