

DEBAR Velte Bi-Fold Door Handle With Integrated Lock

Description

This Debar Velte handle is designed for intermediate panels on bi-fold doors and has a modern sleek style. An aesthetic plate helps create a seamless look by covering the screws, and when turned the handle end does not protrude outside its own width, which helps prevent damage to stacked the panels. This version has an integrated locking cylinder, comes supplied with two keys and is available in a choice of finishes.

Features

- Modern sleek design
- Integrated locking cylinder
- Designed for intermediate panels on bi-fold
- Aesthetic plate hides the screws
- Fits on gearboxes and shootbolt locks with 7mm spindle and 43mm screw centres
- Handle tilts outwards for ease of operation
- Anti-rotating security innovation
