

ABUS 83CS/70 Rock Series 2 Closed Shackle Steel Padlock Body Only Without Cylinder

Description

The ABUS 83/70CS Rock Series 2 closed shackle body only padlock is designed to be used in conjunction with an appropriate cylinder, making it ideal for integrating in to an existing keying system. The 15mm diameter shackle and 70mm wide body are made of hardened special steel, with the addition of a special Nano Protect coating for extra corrosion resistance.

This padlock is supplied body only without a cylinder and will accept a Scandinavian oval cylinder.
