

ABUS 83/70 Rock Series 2 Open Shackle Steel Padlock Body Only Without Cylinder

Description

The ABUS Rock 83/70 Series 2 open shackle body only padlock is designed to be used in conjunction with an appropriate cylinder, making it ideal for integrating in to an existing keying system. The 15mm diameter shackle and 70mm wide body are made of hardened special steel, with the addition of a special Nano Protect coating for extra corrosion resistance.

This padlock is supplied body only without a cylinder and there are three versions to choose from - one that accepts a Scandinavian oval cylinder, a version that accepts a 40mm half euro cylinder and a version that accepts a Fig 8 interchangeable cylinder.

Supplied With No Keys
